6th Science

Unit	Focus/Teks
Unit 01: Investigating Physical Properties of Matter	Students compare metals, nonmetals, and metalloids using physical properties such as luster, conductivity, and malleability; measure density; and investigate solubility, boiling/melting points, and other measurable properties. TEKS: 6.6A–C
Unit 02: Investigating Elements and Chemical Change	Students identify the formation of new substances through observable signs of a chemical reaction, and distinguish between physical and chemical changes. TEKS: 6.6D–E
Unit 03: Investigating Force and Motion	Students describe motion in terms of position, speed, and acceleration; investigate unbalanced forces; and explore Newton’s laws. TEKS: 6.8A–C
Unit 04: Investigating Energy	Students differentiate between potential and kinetic energy; explore transformations between forms of energy; and identify renewable and nonrenewable energy resources. TEKS: 6.9A–C
Unit 05: Investigating Resource Management	Students explore how human activities affect resource availability, including conservation methods and sustainability practices. TEKS: 6.10A–B
Unit 06: Investigating Earth’s Layers	Students model the structure of Earth’s layers, explain plate tectonics theory, and investigate the effects of plate movement such as earthquakes, volcanic activity, and mountain building. TEKS: 6.11A–C
Unit 07: Investigating the Solar System	Students identify characteristics of objects in our solar system, including planets, moons, asteroids, and comets, and compare their size, composition, and position. TEKS: 6.12A–C
Unit 08: Investigating Ecosystems	Students describe how energy flows through ecosystems, analyze relationships among organisms, and examine how environmental changes impact populations. TEKS: 6.13A–C
Unit 09: Investigating Organisms	Students examine the structure and function of cells, levels of organization in living things, and classification of organisms. TEKS: 6.14A–C
Unit 10: Investigating Student-Led Investigations	Students design and conduct scientific investigations following the scientific method, communicate results, and reflect on findings. TEKS: 6.1A–G, 6.2A–E, 6.3A–B
