

Apart We Stand Together
Doss School and Community:
Don't Spread Germs and Stay Home When Sick

- You can spread **#COVID19** without knowing you have it. If you must go out, wear a mask/scarf/bandana, wash your hands regularly, and stay 6 feet apart. We must stay **#ApartTogether** to slow coronavirus.
- Before social distancing, each person with **#COVID19** spread the virus to 2.5 more people. At that pace, most would get it, and many more people would die. But we can slow the spread. That's why we all **#StayHome**.
